

ALi Mahamoud Zaghloul

iOS Software Engineer

Saudi Arabia, Riyadh | +966 535165099 | gmail: alizaghloul90@gmail.com

LinkedIn Account: [Ali Zaghloul](#) | Github Account: [Ali Zaghloul](#)

OBJECTIVE

iOS Software Engineer with 5+ years of experience focused on building complex, modular mobile architectures. Specialist in translating business requirements into high-performance, maintainable codebases using MVVM, Clean Architecture, and advanced functional reactive patterns. Passionate about system design, performance optimization, and mentoring teams to maintain high engineering standards.

EDUCATION

Computer Science

Sep 2016 - Aug 2020

- B.S.E. in Computer Science Engineering, July 2020.

Graduation Project: Ylaa Khair | Technology: **iOS** and **Android** Application | Degree: Excellent

EXPERIENCE

- **Jahez —Senior iOS Developer** Sep 2025 – Present
 - Engineered **Marn Cloud POS app**, optimizing real-time order processing, pricing engines, and VAT calculations.
 - Implemented **offline-first data synchronization** and background queue recovery for uninterrupted sales operations.
 - Integrated external hardware peripherals, including **SUNMI/Zebra Bluetooth printers and scanners**.
- **SAMI-AEC —Senior iOS Developer** Sep 2024 - Sep 2025
 - Modernized **Mawqfi & Riyadh Parking apps** (Riyadh Municipality) by migrating legacy code to **MVVM + RxSwift**.
 - Enhanced app stability and data binding, significantly reducing crashes and improving offline functionality.
- **Ayamedica —Mid-Level iOS Developer** Mar 2023 - Sep 2024
 - Led the architectural migration of **Ayamedica** and **Swipy** apps to **MVVM + RxSwift** to reduce technical debt.
 - Developed both applications from concept to production, ensuring smooth API integrations and pixel-perfect UI.
- **NationTech —Part-Time iOS Developer** Feb 2023 - Dec 2023
 - Developed **NGChat** (real-time messaging) and **Green Matter** applications from scratch to App Store deployment.
 - Designed modular layouts and custom networking layers adhering to strict enterprise standards.
- **SemiColon Ltd —iOS Developer** Jan 2022 - Feb 2023
 - Built **The Ton ecosystem from scratch**, shipping both the **Client** and **Driver apps** with live location tracking.
 - Developed and deployed the **Moqawalat Masr** application, managing the full App Store submission process.

TECHNICAL SKILLS

- | | | |
|-------------------------|------------------------------------|---------------------|
| — Swift | — Problem solving | — Git and GitHub |
| — RxSwift | — SOLID | — Clean code |
| — UIKit & SwiftUI | — Firebase, Core Data, Realm | — MapKit |
| — RESTful API & GraphQL | — Data structure and algorithm | — CocoaPods |
| — MVC, VIPER and MVVM | — GCD and asynchronous programming | — Push Notification |
| | — Swift Package Manager | — CI/CD Pipeline |

PROJECTS

Marn POS (Marn Cloud POS) [App Store](#)

Sep 2025 – present

- Developed a cloud-based Point of Sale iPad system for retail and F&B industries.
- Implemented a robust offline-first synchronization engine and integrated external Bluetooth/Network printers and scanners.
- **Tools:** UIKit/SwiftUI, Core Data, Hardware Integration (SUNMI/Zebra)

Marn KDS (Kitchen Display System) [App Store](#)

Sep 2025 – present

- Built the kitchen management screen designed to receive and track high-concurrency orders.
- Implemented real-time communication via WebSockets to ensure instant order status updates pushed from the POS.
- **Tools:** Swift, WebSockets, Real-time Synchronization

Marn CDS (Customer Display Screen) [App Store](#)

Sep 2025 – present

- Developed the customer-facing display application that pairs and syncs seamlessly with the main POS.
- Engineered local communication protocols to dynamically render live order summaries, VAT breakdowns, and promotional banners.
- **Tools:** UIKit, MVVM, REST APIs, WebSockets, Device-to-Device Communication

Riyadh Parking, (SMI-AEC) [App Store](#)

Sep 2024 - Sep 2025

- Implemented the zone-based street parking system with seamless micro-payment options via Apple Pay and Mada local gateways.
- **Tools:** Swift, UIKit, MVVM, RxSwift, RestfulAPIs, Alamofire, Push Notifications, SPM, GitLab.

Mawqfi, (SAMI-AEC Company KSA) [App Store](#)

Sep 2024 - 2025

- Engineered a smart parking platform that enables users to locate availability, scan gate barcodes, and handle real-time session tracking.
- **Tools:** Swift, UIKit, MVVM, RxSwift, RestfulAPIs, Alamofire, Push Notifications, SPM, GitLab.

EMLE (EMLE Company) App Store ([Educators](#)) ([Learners](#))

Sep 2024 – Jul 2025

- Shipped a dual-app e-learning ecosystem (Educators & Learners) featuring secure interactive video streaming, quiz engines, and persistent content caching.
- **Tools:** SwiftUI, Clean Architecture, Combine, Alamofire

Ayamedica,(Ayamedica Company) [App Store](#)

Mar 2023 - Sep 2024

- Built a secure healthcare and medical records tracking application for parents and schools with optimized local data persistence.
- **Tools:** UIKit, MVVM, RxSwift, GraphQL, Apollo, Core Data

Swipy, (Ayamedica Company) [App Store](#)

Dec 2023 - Sep 2024

- Developed a smart digital business card platform supporting multiple contact profiles and data-extraction via camera OCR and NFC technologies.
- **Tools:** UIKit, MVVM, RxSwift, GraphQL, NFC & OCR Camera Scanning

NGChat , (NationTech Company)

Feb 2023 - Dec 2023

- Engineered an enterprise-grade real-time messaging application with secure media-sharing and location broadcasting features.
- **Tools:** UIKit, MVVM, Realm, Firestore, MapKit

TON , (SemiColon Company) App Store ([Client](#)) ([Driver](#))

May 2022 - Feb 2023

- Built a dual-app logistics platform (Client & Driver) with live core-location tracking and real-time instant messaging.
- **Tools:** UIKit, MVVM, MapKit, Core Data, Firebase Chats

Moqawalat Masr , (SemiColon Company) [App Store](#)

Jan 2022 - May 2022

- Developed a professional networking app connecting contractors and engineers with seamless backend integrations and deep-linking.
- **Tools:** UIKit, MVVM, REST APIs, URLSession, Dynamic Links

Languages

- Native Arabic and Advanced English
